

# Welcome to Careers!

## *Careers at Claremont... ask us how!*

**We offer all our students the tools they need to help themselves make confident choices in the future...in order to,...'fulfil their full potential!'**...

We are proud to offer our students, 'one to one' Careers' Guidance Interviews with a specialist, impartial, advisor.

There is outstanding Careers' Provision at CHSA:

### ***How do we know this?***

'...all groups of students are prepared exceedingly well for the next stage of their education.' (Ofsted, May, 2015)

'...Students receive high quality advice and guidance about course choices at Key Stage 4...they also get useful and extensive information from both school staff and external experts about the range of careers options available to them.' (Ofsted, May, 2015)

'...Students leave...( the sixth form)... extremely well prepared for the next steps in their education or careers with a high proportion progressing to higher education. (Ofsted, May, 2015)

We have an outstanding record of placing students in further or higher education once they leave Claremont. We work with Prospects (part of The Shaw Trust) to ensure that no student is NEET after year 11 or year 13 (NEET - Not in Education or Training)

We take very care to ensure that all our students have access to this valuable guidance when they need it, particularly in Years 11 and 13 when key decisions are made regarding, 'next steps'. This focus on the student and which pathway is best for them ensures effective transition into our own outstanding 6th form or an alternative pathway at 16+ or into University or an alternative pathway at 18+. The Guidance is a fundamental part of the success and one which we and the students very much value!

We pride ourselves on a well-resourced careers library. Recently we made a move away from the traditional prospectus-filled careers library to the website Unifrog. This fabulous site gives us all the careers information we need to help all students research universities, courses, training, apprenticeships, and career opportunities. This is particularly beneficial for years 11,12, and 13, because so much information is contained centrally in one place. Unifrog is linked in to the UCAS website, so updates regularly on the latest information. Parents, too, have a Unifrog login, so they are able to support their son/daughter.
